RAVENOL Hand Clean & Care is ideal for removing heavy soiling caused by oils, lubricants, greases, paints, printing inks or dust, etc. Contains a high proportion of ingredients of coconut oil, which ensure optimum moisturizing of the skin after intensive washing.

RAVENOL Hand Clean & Care can be easily portioned thanks to its flowability and does not clog drains. For optimal dosing, we offer our **dispenser for RAVENOL Hand Clean & Care - Item No. 1370140**. However, the container is also suitable for many other types of dispenser systems. The abrasive corn cob meal, being a waste material, does not compete with other food products.

RAVENOL Hand Clean & Care consists of high-quality raw materials, a high proportion of which are of vegetable origin. Therefore, in addition to its excellent cleaning properties, it also has very good skin compatibility, which has been dermatologically assessed as "very good".

Application Note

RAVENOL Hand Clean & Care should be rubbed into the hands until the dirt is loosened and then mixed with water, washed thoroughly and rinsed off. Our RAVENOL Putzpapier blau (a high-quality blue tissue wipe) designed for workshop use, is very suitable for toweling the hands dry.

RAVENOL Hand Clean & Care is very effective and economical to use, so one dispenser dose per application is sufficient.

Note:

RAVENOL Hand Clean & Care has a shelf life of at least 30 months if unopened and 12 months if opened.

Avoid contact with eyes. In case of contact with eyes, rinse immediately with plenty of water.

Characteristics
