

RAVENOL Petrol Power Performance

Kategorie: Additives

Artikelnummer: 1390206

0.3L | 1390206-300

RAVENOL Petrol Power Performance is a highly effective fuel additive for all petrol engines for care, cleaning and protection of the entire fuel system. Ensures a technically safe and economic operation and provides a verifiable saving of fuel and increased performance.

RAVENOL Petrol Power Performance guarantees ideal combustion. This prevents deposits and oxidation by-products on fuel lines, injection needles, cylinders, spark plugs and combustion chamber.

RAVENOL Petrol Power Performance prolongs the service life of catalytic converters and lambda probes by means of optimum combustion.

Application Note

RAVENOL Petrol Power Performance is added to the petrol before refueling.

Area of application:

- Petrol-operated engines
- Can be used preventively at every service
- In the event of increased fuel consumption
- In cases where inadequate fuel is suspected
- When using E10 petrol blend
- Also recommended for direct injection engines

Application: Pour the contents of the container into the tank. Repeat use every 2000 km or if necessary. Sufficient for fuel volume up to 60- 75 l of petrol. Minimum fuel capacity according to volume of fuel reserve.

Characteristics

- Guarantees optimum combustion
- Saving of fuel
- Cleaning of fuel lines, injection needles, cylinders, spark plugs and combustion chamber
- Increases performance of motor
- Prolongs the service life of catalytic converters and lambda probes
- High Protection against corrosion and oxidatino
